Uchechukwu Cos-Ibe

ucosibe@gmail.com • LinkedIn • Portfolio

SUMMARY

DevOps Engineer with a strong background in infrastructure automation and cloud technologies. Skilled in deploying scalable and secure systems on AWS, GCP, and Azure. Proficient in CI/CD, infrastructure as code, and containerization. Experienced in driving process improvements, reducing deployment time, and ensuring system reliability. Google Cloud Certified Professional Data Engineer and Associate Cloud Engineer.

SKIL

• Cloud Platforms: AWS, Google Cloud Platform (GCP), Microsoft Azure

• Infrastructure as Code: Terraform, Ansible

• CI/CD Tools: Jenkins, GitLab

• Containerization: Docker, Kubernetes

• Scripting Languages: Python, bash

• Monitoring/Logging: Prometheus, ELK stack

Databases: PostgreSQL, RedisOperating Systems: Linux

• Other Tools: Docker, Jira

PROFESSIONAL EXPERIENCE

Imbod, Cloud Engineer, May 2022 – Present

Lagos, Nigeria

- Automated the deployment of cloud infrastructure using Terraform, provisioning VMs, storage buckets, networking components, and managed services such as Cloud SQL.
- Created infrastructure as code templates, reducing deployment time by 70% and increased infrastructure reliability.
- Developed and maintained CI/CD pipelines for the company's e-commerce web application using GitHub, Container Registry, and Cloud Build, resulting in reduced deployment errors.
- Configured automated testing, build, and deployment processes, ensuring efficient and error-free production releases.
- Built scalable and fault-tolerant systems on GCP using Compute Engine, Cloud Storage, and Cloud SQL, optimizing system performance during high traffic periods.
- Implemented security best practices on GCP, resulting in zero data breaches or incidents.

First Bank Nigeria, Database administrator, April 2021 – May 2022

Lagos, Nigeria

- Implemented database encryption techniques to safeguard data at rest and in transit.
- Optimized SQL queries, reducing response times by 30% for large datasets.
- Collaborated with cross-functional teams to provide data-driven insights for product development and business strategy.

The Sparks Foundation, Data Science & Business Analytics, September 2020 – April 2021

Remote, Singapore

- Developed Developed interactive visualizations and dashboards using Tableau to analyze customer behavior, product usage, and marketing campaigns.
- Conducted data analysis to drive revenue growth and cost optimization.
- Presented insights and recommendations to senior management.

EDUCATION

Federal University of Technology Owerri, September 2016 – May 2021

Imo, Nigeria

Bachelor of Technology in Computer Science
